Reg. No. : | | | | | | | | | | |

Question Paper Code: 47404

B.E. / B.Tech. DEGREE EXAMINATION, DEC 2020

Seventh Semester

Electronics and Communication Engineering

14UEC704 EMBEDDED AND REAL TIME SYSTEMS

(Regulation 2014)

Duration: One hour Maximum: 30 Marks

PART A - (6 x 1 = 6 Marks)

(Answer any six of the following questions)

1. ARM processors are basically designed for _____

   (a) Main frame systems (b) Distributed systems

   (c) Mobile systems (d) Super computers

2. ARM7 is a _____ processor with _____Architecture

   (a) RISC, Harvard (b) CISC, Von Neumann

   (c) RISC, Von Neumann (d) CISC, Hardvard

3. A large memory is compressed into a small one by using _____

   (a) LSI semiconductor (b)VLSI semiconductor

   (c) CDR semiconductor (d) MSI semiconductor

4. Executable binary file generation is carried out by

   (a) Assembler (b) Loader (c) Linker (d) Compiler

5. If the period of process is P,then the rate of the task is_____

   (a) P^2 (b) 2P (c) 1/P (d) P

6. The priorities that change during execution is

(a) Static (b) Dynamic (c) Both (d) None

7. The interconnect network used in automotive electronics is

(a) I^2C (b) Ethernet (c) Internet (d) CAN

8. Internet enabled network has applications in

(a) Hard Real time (b) Soft Real Time (c) In both a & b (d) Non Real Time

9. Software Modem utilizes

(a) PSK (b) ASK (c) FSK (d) QPSK

10. Huffman coding is used for_____

(a) Text compression (b) Video compression

(c) Image compression (d) File compression

PART – B (3 x 8= 24 Marks)

(Answer any three of the following questions)

11. Discuss the embedded system design process in detail. (8)

12. Elaborate in detail about the different types of Memory devices with neat sketch (8)

13. Describe any two scheduling policies used in multiprocessor environment (8)

14. Discuss in detail about internet enabled systems with neat sketch. (8)

15. With a neat diagram, Describe how Personal Digital Assistant and data compressor are designed (8)
