B.E./B.Tech. DEGREE EXAMINATION, NOVEMBER/DECEMBER 2014.

Seventh Semester

Computer Science and Engineering

MG 2452/MG 52/10177 GE 007 — ENGINEERING ECONOMICS AND  
FINANCIAL ACCOUNTING

(Common to Fifth Semester Information Technology)

(Regulation 2008/2010)

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

PART A — (10 × 2 = 20 marks)

1. What are the various objectives of Business firms?
2. What are the principles involved in the following?
  - (a) The labourers of village B buy more of Wheat when Price of Wheat increases.
  - (b) When the price of kerosene oil is increased, there are big queues to buy kerosene.
3. What is the formulae for the cross elasticity of demand?
4. List out the contributions elements for demand of any commodity.
5. Write down the basic assumptions of productive function.
6. What is meant by Comparative cost?
7. What is price Discrimination?
8. What is oligopoly?
9. Write down the typical format for P and L Account?
10. Write down the formula for the following.
  - (a) Debt-Equity Ratio
  - (b) Return on Total Assets.

PART B — (5 × 16 = 80 marks)

11. (a) "Profit Maximization and social responsibility are in compatible" – Do you agree with this statement.

Or

- (b) Can Modern firms have Profit Maximization as the only Goal?

12. (a) Explain the Law of Demand. Besides the price of commodity, what are the other factors which influence the demand for commodity?

Or
