Reg. No. :

Question Paper Code: 54A02

B.E. / B.Tech. DEGREE EXAMINATION, MAY 2022

Fourth Semester

Agriculture Engineering

15UAG402-POST HARVEST TECHNOLOGY

(Regulation 2015)

(Usage of psychometric chat is approved)

Duration: Three hours

Maximum: 100 Marks

Answer ALL Questions

PART A - $(10 \times 1 = 10 \text{ Marks})$

| 1. | The following is an indirect type of moisture measurement method | | | CO1- R | |
|----|--|--------------------|------------------------------------|-------------------|--|
| | (a) Air oven | | (b) desiccators | | |
| | (c) infrared | | (d) electrical resistance | | |
| 2. | A mixing type contin | uous flow dryer is | | CO1- R | |
| | (a) Flat bed dryer | (b) LSU dryer | (c) Recirculating dryer | (d) None of these | |
| 3. | Drying is a process o | f | | CO2- R | |
| | (a) Heat transfer | | (b) Mass transfer | | |
| | (c) Heat and Mass transfer | | (d) Moisture transfer | | |
| 4. | Recent innovation in belt conveyor system for grain handling is CC | | | | |
| | (a) Belt speed upto 4. | .5 m/s | (b) Belt speed from 2.5- 2.8 m/s | | |
| | (c) Belt speed upto 3. | 5 m/s | (d) Belt speed upto 5.5 m/s | | |
| 5. | A scalper is used for | | | CO3- R | |
| | (a) Fine separation of materials | | (b) medium separation of materials | | |
| | (c) rough separation of | of materials | (d) stone separation | | |
| 6. | refers to the removal of large particles in initial process CO | | | | |
| | (a) Grading | (b) Sorting | (c) Scalping | (d) None of these | |

A

| 7. | The following material handling equipment is more convenient to transport material over long distance | | | | | CO4- R |
|-----|---|---|-----------------------------|----------------------------|---------------------|--------|
| | (a) S | Screw conveyor | | (b) belt conveyor | | |
| | (c) pneumatic conveyor | | (d) bucket elevator | | | |
| 8. | Glaz | Glazing of rice is done using | | | | CO4- R |
| | (a) [| Talc powder | (b) Hydrogen peroxid | le (c) Water | (d) CO ₂ | |
| 9. | Lim | Limitation of Pneumatic Conveying is/ are | | | | CO5- R |
| | (a) Erosion of solid surfaces (b) Erosion of duct system | | | | system | |
| | (c) I | (c) Impact between particles (d) All of the above | | | | |
| 10. | In rubber roll sheller, the dehusking of paddy occurs due to | | | | | |
| | (a) S | (a) Shear (b) shear and impact | | (b) shear and impact | | |
| | (c) shear and compression (d) compression and impact | | | impact | | |
| | | | PART – B (5 x 2 | 2= 10 Marks) | | |
| 11. | . Define equilibrium moisture content. | | | | CO1- R | |
| 12. | Differentiate thin layer and deep bed drying. | | | | CO2- R | |
| 13. | List the separator which separates grains based on length. | | | | CO3- R | |
| 14. | Suggest a suitable material handling eqipment to transport bagged materials. | | | | CO4- R | |
| 15. | Mention the end products of wheat milling. | | | | CO5- R | |
| | | | PART - C(5) | x 16= 80 Marks) | | |
| 16. | (a) | (a) Specify the importance of optimum stage of harvest. Explain the CO1- working of mechanical thresher for paddy. Or | | | CO1- U | (16) |
| | (b) | Describe the dire measurement | ect and indirect method | s of moisture | CO1- U | (16) |
| 17. | (a) | Define seven the importance in dr | rying | es of air and specify its | CO2- U | (16) |
| | (b) | Explain the wor | Or king of LSU drver and | d fluidized bed dryer with | CO2- Ana | u (16) |
| | < / | neat sketch | | | - | ~ / |
| 18. | (a) | a) Explain the working of spiral separator and magnetic separator. CO3- An Or | | | CO3- Ana | u (16) |
| | (b) | Explain the wor | king of intended cylin | der separator and inclined | CO3- Ana | u (16) |

54A02

belt separator.

| 19. | (a) | Describe working of maize sheller and groundnut decorticator | CO4- U | (16) | |
|-----|-----|--|----------|------|--|
| | | Or | | | |
| | (b) | (i) Differentiate between discharge methods of bucket elevators. | CO4- Ana | (8) | |
| | | (ii) Explain in detail about elevator belt and drive mechanism of bucket elevator. | CO4- Ana | (8) | |
| 20. | (a) | Explain the working of rubber roll sheller and rice polisher. Or | CO5- U | (16) | |
| | (b) | Describe the process involved in wheat milling. | CO5- U | (16) | |
